### My Family's Story

Our family began with a love story. My husband Mike and I met in Moscow, were engaged in Egypt and then moved to BC to be married. The truth is, I didn't like the idea of moving to Canada in the beginning. Mike and I made a deal: I would give Canada the same two years that he had given to Russia...after which, if I didn't love it, he would take me anywhere in the world I wanted to go. Then he cheated...he brought me to BC. I didn't make it through the first month before putting down roots and deciding to make it my home.

The early years were tough financially. Mike often worked two or more jobs and I felt powerless to help, as I couldn't yet legally work. Instead, I took up painting personalized ceramics (lamps, vases, bowls, etc.) for sale online. It was fun for while but I felt I had more to give. I played around with acrylics, on a variety of surfaces, dabbled in multi-media and even considered mural painting as an avenue. Then, one fateful day, a very good friend of mine lent me her inks to play with. I tried them on watercolour paper and fell in love instantly. Before I knew it, I was painting almost every day. A month later, we were selling my paintings online and at local art markets.

Understanding where Oladesign went from there is about understanding the people who chose to believe in me and support me in this journey. It started with my husband, who continued to work two jobs; one of which became Oladesign. He promoted me at our first Christmas shows, while I was pregnant with our daughter Alisa, and has continued to do shows across the country ever since. He is my partner in all things and he does everything he can to keep me painting while he runs the business. Our friends have all been an incredible support over the years, but none had been more involved than Jesse and Dominique Stubbs. It was, therefore, fitting that Jesse became our first full time employee somewhere between naming Mike as a co-Best Man at his wedding and the God-Father of their first born child (didn't take long). Since then, our eldest son - Rodion - has joined in; having recently been promoted to Manager of our gift store "Favourite Gifts" in Lonesdale Quay (at only 20 years of age).

Over the years there have been countless other contributors to our continued success but it has been the fans and customers, both retail and wholesale, that has transformed Oladesign from a way to help my husband support our burgeoning family into the business that now supports multiple families, all of whom profess that they are one family.

No one needs to tell me how lucky I am...I already know.

# Greeting Cards

This is a standard 4×6 folded greeting card of an original painting by Olga Cuttell of Oladesign. Perfect for all occasions, from birthdays to anniversaries; it is printed on recycled paper, in Canada and includes an envelope. The painting's name, a small Oladesign logo and a brief bio of the artist, adorn the back of the card. The inside of the card is blank.

## Matted Paper Prints

Oladesign is pleased to present the artwork of Olga Cuttell in the widest variety of sizes and formats ever!

For the traditionalist we proudly offer paper prints, printed on Epson Hot-Press Natural Fine Art Paper (Archival), and using Epson (Archival) Inks. These reproductions capture the true colour and radiant beauty of the original artwork. Now available in 3 sizes: 5x7 window with 8x10 outer mat, 8x10 window with 11x14 outer mat and 11x14 window with 16x20 outer mat. It is no coincidence that these are all standard sizes, as Oladesign is committed to providing its customers beautiful and affordable ways to enjoy Olga's artwork. Larger sizes are available by special request.

## Canvas Prints

Canvas Prints remain our favourite way to display Oladesign artwork. The clean white canvas seamlessly carries the negative space that typifies so many of Olga's pieces, all while capturing the explosive colours that draw the eye and ensnare the senses. Canvas is classic, elegant and stands alone without framing. If your looking to get Olga's work in a large format, other choices pale in comparison. Now available in 16x20", 20x24" and 24x30" sizes. Larger canvases available by request.

# Coasters

Oladesign Coasters are 4" square coasters featuring an original watercolor painting by Olga Cuttell. The coasters are made of hard, laser-cut, MDF board and have rounded corners with a cork bottom. As with all our products, Olga has painted the original artwork and then Oladesign applies a miniaturized print to the coaster using a process called dye-sublimation. The result is a strikingly colourful and remarkably durable coaster made right in my studio in BC Canada. It is resistant to heat, cold, moisture, scratching and even reasonable impact (not guaranteed for use as a frisbee - as my daughter proved recently).

Coasters are purchased in sets of four and can be displayed and sold in a number of ways. Our own greatest success has come from displaying them on a multi-tier rack and offering them as a mix and match set of four. Please enquire about display options with us. We are happy to advise and even provide our solutions for you.

# Bookmarks

Introducing Oladesign's NEW Bookmarks now with tassels. Mark your page with these slim aluminum slips imaged with your favourite Oladesign artwork. The imaged side is just over 2x5 inches and, though only 1/32 of an inch thick, the bookmark is both thin and strong. Makes the perfect gift for that bookworm in your life or for your turn to host the book club. The image is applied using dye-sublimation by Oladesign right here in my studio, in British Columbia, Canada. It's scratch resistant and durable; even standing up to a cleaning with rubbing alcohol.

## Magnet Sets

Magnet Sets are a new and already very popular product for Oladesign. Each pack comes with three strong art adorned magnets; one large (3.5") and two smaller (1" each). The aluminum backing is pressed together with the art and a clear plastic coating, in a way that is similar to the way a button is pressed. Let us assure you, these magnets are not strictly decorative. They hold well enough to put up you kids thick papered art and multi-page report cards. We use them in our own home and swear by them.

## iPhone Cases

Protect your iPhone or Samsung phone with a one-piece, impact resistant rubber case, featuring an extremely slim profile and imaged hard plastic backplate. The rubber case is snug fitted and will not loosen over time or pop off unintentionally. The rubber case is highly shock resistant, providing real protection for your valuable phone. The screen side has a lip that extends well above the glass, to provide face-down protection, even when dropped. These cases do not crack or break and the image is nearly impervious to scratching and wear. All cases are imaged and assembled by Oladesign, right in my studio in BC Canada.

## Mugs

Add to the enjoyment of your morning coffee with this 15oz. solid ceramic coffee mug featuring one of Olga's lovely designs on both sides (for both righties and lefties). This large size mug is both machine washable (without fading the of damaging the image) and microwave safe. Each mug comes with its own individual box and is a perfect item to couple with our stunning coaster line.
